

I am in full support of any petition to the FCC (RM-10782, RM-10783, RM-10785, or 10787) which asks for the complete removal of the Element 1 (morse Code) Requirement to the amateur Radio Rules. I have been working with radio equipment for over 15 years in the Civil Air Patrol and have found use of the HF bands extremely effective for accomplishment of the mission. I only recently earned my Amateur License (about 2 years ago). I have HF equipment at my home, but can only use it on the CAP frequencies. Thank you.
